

**Slinky**

**Link your shared office**

**project number: 221102**

**Submitted by: Nadav Avraham, Amit Asher**

**Supervisor: Dr. Sarel Cohen**

**Made as part of startup collaboration workshop**

**THE idea**

# Houston, we have a problem...

In the mid/post-Covid19 world, more and more companies are moving to a partial model of working from home, and renting offices in shared workspaces is becoming commonplace.

# Main problems

- Require shared resources, with high demand.
- Socialisation and Communication between people from different companies and industries.

**Huston,  
Don't be so worried...**

# What is Slinky?

Slinky as a friendly, intuitive and easy to use platform that links your shared office, in a diverse manner - professionally and socially.

# How we help workers

- Schedule your favorite spot to work.
- Check who works with you indoors.
- Socialize with workers from other companies.
- Be updated on office status and shape.

# How we help companies

- Know who works in which office and when.
- Inspect and analyze office exploitation.
- Notify workers on a cross-organization info.

# DEMO TIME

Let's check features  
for companies

# For Companies:

- Know who works in which office and when.
- Inspect and analyze office exploitation.
- Notify workers on a cross-organization info.

# Deep dive

# System Architecture

# Let's talk business

- Today there is no proper dynamic solution for workers and companies like Slinky provide.
- Different solutions offered today, are not as wide and diverse in its features like Slinky offer.
- There is no proper solution for connecting workers of different companies, in shared work spaces.

**Thank you**
