

# Poker Arena

מספר פרויקט: 211302

שם הסדנא: פיתוח משחקים / תכנות מקבילי

שם הסטודנטים: יוסי דניאלס, מאיר שטרקמן

שם המנחה: ד"ר משה סולאמי

# Problem Description:

- Nowadays, Online casino games are one of the biggest gaming markets.
- In the last few years, we see increasing usage of social network platforms and open world games.
- If we look at the big picture, this presents us with a big opportunity.

# Comparison

- Zynga Poker: Offers their customers multi poker table type games.
- World of Warcraft: The biggest MMORPG in the world.
- CasinoRPG: Poker tables that are combined with online open world.

# Summary

- We've created a new poker game platform combined with an open world experience.
- The MonoGame platform will enable us to scale up in the future into new gaming platform with relative ease.
- Platform to combine multiple games with common ground to one MMO game.
